John G. Helmke, President

John's father, Ed Helmke, started Helmke & Co., Inc. in 1958. John decided to take after his father and started cutting lawns in the neighborhood in the late 1970's when he was 16 years old. John was eventually given the responsibility for some of the larger accounts like the old Nanuet Mall, which the company handled for many years. In 1979, John started his own company, Helmke Industries. His first commercial job was the New City Condos, which are still there today.

John believes that the consistency of quality that he can offer his clients starts with the consistency of his personnel. He believes in keeping employees for a long time, and it shows in the work the company produces on a regular basis. Customers also appreciate seeing the same people at their home every week.
